

INFORMATION SHEET

MESH BALCONY COVERS

The covers are made of 270g/m² mesh which gives approx. 60% shade. The material is available in factory white colour only, it is partly translucent so it will give some sense of privacy. The user will also be able to enjoy the view on the other side while relaxing in the comfort behind the cover. The material used allowed for obtaining a cost-effective product, and balcony covers made of it are an alternative option to expensive solutions. They are almost a maintenance-free product and are perfect for places exposed to dirt where washing with pressure washers is an additional advantage. They can be installed on various balconies. They decorate railings, ensure discretion, give shade and slow wind and rain on their surface. They are a valued choice for their versatility, functionality along with low purchase costs, easy use, easy installation, which can be performed in a way non-invasive for the railing.

Note! When choosing a product, please read the instructions for use.
